

FL-8 Liquid Torch

Liquid propane coil style torches are used when quick spot heating is required. The long, two handled design allow the operator a convenient and easy way to operate the torch for long period of time. The coil style torch incorporates and on-board, liquid vaporizer. This allows you to fuel the burner directly with liquid L.P. Gas (liquid withdrawal propane).

IMPORTANT - The use of liquid LP Gas requires the use of special system components and a hydro-static pressure relief valve. Please refer to NFPA-58 and your local municipal governing agency.

Specifications

BTU Rating	2,000,000 @ 25psi
Fuel	Liquid L.P.Gas (propane)
Fuel Connection	9/16"-18 LH (ball seat)
Coil—Diameter	6"
Coil—Material	3/8" Mild Steel Pipe
Length	62"
Height	8"
Weight	15 lbs
Color	Blue

- Fully welded construction
- Every unit is function tested
- Shipped with HD brass valve
- Include adjustable air shutters
- Two handled design
- Easy to use
