## SPECIFICATION SHEET *Hot Air Ply-Rite Jr.* **Flameless Heater**

The Hot Air "Ply-Rite" Jr. is a hand-held, propane powered heater used for both material installation and roof deck drying. With a high-volume of hot air, the "Ply-Rite" Flameless Heater is hot enough to melt modified, but cool enough to minimize any accidental material flames. The on-board heater management controls continuously monitor the system performance and will shut-down the gas supply if a failure occurs. A double-insulated plastic body and a double wall heating chamber are standard safety features to help protect workers.

| <b>Specifications</b> |  |
|-----------------------|--|
| BTU Rating            | 200,000 @ 10psi                                |
| Temperature Output    | 1,200 deg F                                    |
| Fuel                  | Vapor L.P. Gas (propane)                       |
| Electrical            | 115 VAC - 10 amp                               |
| Fuel Connection       | 9/16"-18 LH (ball seat)                        |
| Discharge             | Elbow dia. - 3"<br>Nozzle - 1/2" x 12" opening |
