

Hot Air Ply-Rite "Jr." Hand-Held Heater

Hot Air + No Flame = Safe Roof Installation

The Hot Air "Ply-Rite" Jr. Hand-Held Heater is the future for Modified Bitumen Installation. Using a high powered air blower along with a confined propane heat generator, the Hot Air "Ply-Rite" Jr. will give you the safe control of your next roofing job.

Also works great as a Roof Dryer, Snow Melter & Patcher

BLOWER WORKS WITH OR WITHOUT HEATER OPERATING

Ask for it by name - Hot Air "Ply-Rite" Roofing Products.
